WORK EXPERIENCE

SENIOR PRODUCT DESIGNER | Monte Carlo
Jan 2023 – Present | 8 mos

- Leading the user experience workflows for data observability at Monte Carlo.

- I design critical, intuitive frameworks for data engineers to define custom data quality tests, and provide them insightful dashboards to monitor the health of their important data assets.

SENIOR PRODUCT DESIGNER | Domino Data Lab
Jun 2020 – Jan 2023 | 2 yrs 8 mos

- I led the UX and Information Architecture of 'Data Access' workflows at Domino Data Lab. I designed UX for Data access, Data Cleaning and Exploratory Data Analysis, Feature Engineering, Training Sets, and sharing and collaboration these different forms of data with teams.

- I also led company-wide initiatives to set up the design process and tools. Conducted regular design workshops with team members to encourage a collaborative product development process.

PRODUCT DESIGNER | Rollbar
Oct 2017 – Jun 2020 | 2 yrs 9 mos

- I led the UX redesign of Rollbar's core product with 40% adoption rate under beta launch in 2020. I was involved in identifying gaps, conduction exploratory user research, ideation, concept validation, high-fidelity designs, implementation hand-off, and usability testing.

PRODUCT DESIGN INTERN | University of Michigan
May 2016 – Oct 2017 | 1 yrs 6 mos

- I led the redesign of ECoach, a $1.9M NSF funded online personalized training tool for students to improve their academic performance. It has helped over 25,000 students at the UofM and UCSB.

SOFTWARE ENGINEER | Microsoft
Jul 2013 – Jul 2015 | 2 yrs

- I helped design and build an advanced code search experience for Azure DevOps – Git version control. I primarily owned the 'Parser' backend service and also assisted product research.

EDUCATION

UNIVERSITY OF MICHIGAN, ANN ARBOR
MS in Information
Human-Computer Interaction – MSI, 2017

UNIVERSITY OF PUNE, INDIA
Bachelor of Engineering
Computer Science – BE, 2013

SKILLS

PRODUCT DESIGN	TOOLS & CODING
Mock-ups	Sketch
Wireframes	Illustrator
Icons & Illustrations	Figma
Interactive Prototypes	InVision/UxPin
Heuristic Evaluation	d3/js
Usability Testing	HTML/CSS
