WORK EXPERIENCE

SENIOR PRODUCT DESIGNER | Monte Carlo
Jan 2023 – Present | 1 yr 8 mos

Helping build Monte Carlo's category defining data observability product. Leading the UX and IA for key workflows such as data quality monitoring, incident management & reporting, data lineage and pricing

SENIOR PRODUCT DESIGNER | Domino Data Lab
Jun 2020 – Jan 2023 | 2 yrs 8 mos

Leading the UX and IA Domino's Enterprise Data Science platform. Helped design key product workflow such as access to data sources, data cleaning and exploratory data analysis, feature engineering and knowledge sharing

PRODUCT DESIGNER | Rollbar
Oct 2017 – Jun 2020 | 2 yrs 9 mos

I was the sole designer owning Rollbar's core features – Monitor, Triage, and Debug errors. Led a complete UX redesign of Rollbar in 2020 that resulted in 40% adoption rate under beta launch in the first 3 months

PRODUCT DESIGN INTERN | University of Michigan
May 2016 – Oct 2017 | 1 yr 6 mos

I led the redesign of ECoach, a $1.9M NSF funded online personalized training tool for students to improve their academic performance, used by over 25k students at UM and UCSB

SOFTWARE ENGINEER | Microsoft
Jul 2013 – Jul 2015 | 2 yrs

I helped design and build an advanced code search experience for Azure DevOps – Git version control. I primarily owned the 'Parser' backend service and also assisted product research
